

4 Devas Pregnancy Prayer

For those who are frustrated or can get frustrated with the safe limitations that are experienced during pregnancy, I offer the following inspired prayer to use. It was inspired by my years of esoteric work with devas of earth, air, fire and water.

I worked with this prayer/mini visualisation myself each time I was pregnant, while visualising/sensing a healthy baby forming. I also followed through practically by staying safe, eating as best I could, keeping doctor's appointments, attending pre-natal classes etc.

It is a prayer that I created to appeal to the Luna lords, the devas that create the bodies of physical incarnation under the direction of the incoming solar angel (higher self or star self).

It is suggested to use the term baby, not boy or girl, when using this prayer. Even if you have been told the gender in the later stages of pregnancy, sometimes scans can be wrong. Even if you choose to use the gender or name this won't cause any harm however this prayer is meant to be about encouraging healthy development and not getting fixated or imprinting a name or gender so early on. Let nature run its course with this non – interference prayer, if it appeals to you.

Always follow the advice of your GP. This prayer is not a substitute or replacement for proper medical care. No medical claims are made.
